INDEPENDENT AUDITOR'S REPORT

Members of the Board Line Mountain School District Herndon, PA

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Line Mountain School District, Herndon, Pennsylvania as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Line Mountain School District, Herndon, Pennsylvania as of June 30, 2017, and the respective changes in financial position, and where applicable, cash flows thereof and the respective budgetary comparison for the General Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7 through 19, the schedule of funding progress for postemployment benefits other than pensions, the schedule of the district's proportionate share of the net pension liability and the schedule of the district's contributions on pages 67 through 69 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Line Mountain School District, Herndon, Pennsylvania's basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 22, 2017, on our consideration of Line Mountain School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Line Mountain School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION & ANALYSIS

FOR THE YEAR ENDED JUNE 30, 2017

Our discussion and analysis of the Line Mountain School District's financial performance provides an overview of the financial activities for the fiscal year ended June 30, 2017. Please read it in conjunction with the financial statements, which follow this section.

The Management Discussion & Analysis (MD&A) is Required Supplementary Information as specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued in June 1999. Certain comparative information between the current year (2016 - 2017) and the prior year (2015 - 2016) is required to be presented in the MD&A.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts, Management's Discussion and Analysis, the Basic Financial Statements, and Supplemental Information. The Basic Financial Statements include two kinds of statements that present different views of the District.

- The first two statements are district-wide financial statements that provide both shortterm and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- Proprietary funds statements offer short and long-term financial information about the activities the District operates as a business, such as food service.
- Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

MANAGEMENT'S DISCUSSION & ANALYSIS – continued

FOR THE YEAR ENDED JUNE 30, 2017

The Basic Financial Statements also include Notes to Financial Statements, which explain some of the information in the statements and provides additional details.

District-wide Statements

The district-wide financial statements report information about the District as a whole using accounting methods that are similar to private-sector companies. The Statement of Net Position includes assets and liabilities. All of the current year's revenues and expenses are included in the Statement of Activities regardless of when cash is received or paid.

The two district-wide statements report net position and how they have changed. Net position is the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources.

In the district-wide financial statements, the District's activities are divided into two categories:

- Governmental activities Basic services are included here, such as regular education, special education, transportation, and administration.
- Business-type activities Fees are charged to help cover the costs of certain services. The District's food service is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds and not the District as a whole. A fund is a fiscal and accounting entity, with a self-balancing set of accounts recording cash and other resources, together with all related liabilities and residual equities or balances, or changes therein. Funds are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. Each fund must be so accounted for that the identity of its resources, obligations, revenues, expenditures, and fund equities is continually maintained.

MANAGEMENT'S DISCUSSION & ANALYSIS - continued

FOR THE YEAR ENDED JUNE 30, 2017

The Line Mountain School District has three types of funds:

- Governmental funds –Most of the District's basic services are included in governmental funds, which generally focus on cash flows and year-end balances. These statements provide a detailed short-term view that helps to determine the available resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the long-term focus of the district-wide statements, we provide additional information with the governmental funds statements to explain the relationships between them.
- Proprietary funds Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported the same way as the district-wide financial statements.
- Fiduciary funds The District is the trustee, or fiduciary, for assets that belong to others, such as the Student Activities Fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes, and by those to whom the assets belong. All the fiduciary activities are reported in a separate statement of fiduciary net position. These activities are excluded from the district-wide financial statements because the District cannot use these assets to finance its operations.

Revenues – The District's total revenues were \$20,221,518 for the year ended June 30, 2017. See Table A-2. Taxes and State Formula Aid made up 73% of total revenue for the year. Another 27% came from state and federal aid for specific programs (operating and capital grants) and the remainder from fees charged for services as well as other sources. See Figure A-1.

- Users of District programs paid \$308,444.
- The federal and state governments subsidized certain programs with grants and contributions totaling \$5,043,458.
- District taxpayers paid \$7,649,428.
- State taxpayers paid \$7,135,550.
- Investment earnings were \$56,857.
- Other revenue totaled \$27,781.

MANAGEMENT'S DISCUSSION & ANALYSIS – continued

FOR THE YEAR ENDED JUNE 30, 2017

Expenditures - The total cost of all programs and services was \$20,775,974. Instruction related expenses (Instruction, Instructional student support, Pupil transportation, and Student activities) accounted for 75% of the expenses. The remainder of the expenses were Administrative costs of 10%, Operation of facilities of 8%, Food service of 3%, and Other costs at 4%.

- Instruction related expenses were \$13,730,980.
- Administration and financial support expenses were \$1,991,602.
- The cost of operating and maintaining the facilities was \$3,568,939.
- Food service operations cost \$640,256.
- Interest on long-term debt obligations was \$844,197.

GENERAL FUND

GENERAL FUND

The following schedule provides a summary of General Fund revenues and Other Finance Sources.

	Year Ended June 30, 2016	Year Ended June 30, 2017	Increase (Decrease)	Percent of Change
Local sources				
Taxes	\$7,140,724	\$7,485,687	\$344,963	4.83%
Interest	41,122	48,020	6,898	16.78%
Other	293,920	257,878	(36,042)	-12.26%
State sources	10,302,526	11,418,433	1,115,907	10.83%
Federal sources	360,648	386,336	25,688	7.12%
Total Revenue	18,138,940	19,596,354	1,457,414	8.03%
Other sources-net	0	19,000	19,000	
Total Revenue and Other Sources	\$18,138,940	\$19,615,354	\$1,476,414	8.14%

Total General Fund revenue, exclusive of Other sources-net, increased by \$1,457,414 or 8.03% from the previous year. Tax collections increased \$344,963 – increase of 4.83% from the previous year. Interest income increased by 6,898. Other, decreased by \$36,042.

The increase in state funding \$1,115,907 is attributable to the state designating a portion of funds as federal appropriations which is driven by finance formula changes enacted by the state legislature to provide net funding increases for public school regular and special education programs. Included in the increase are one time payments for the previous year's reimbursements for school construction projects.

FOR THE YEAR ENDED JUNE 30, 2017

GENERAL FUND – continued

The following schedule provides a summary of General Fund expenditures:

GENERAL FUND – continued

The following schedule provides a summary of General Fund expenditures:

	Year Ended June 30, 2016	Year Ended June 30, 2017	Increase (Decrease)	Percent of Change
Salaries	\$6,948,912	\$8,795,840	1,846,928	26.58%
Employee benefits	4,564,396	5,237,836	673,440	14.75%
Purchased services	4,000,790	4,094,955	94,165	2.35%
Supplies	344,507	393,608	49,101	14.25%
Property	111,824	108,166	(3,658)	-3.27%
Other	1,909,843	1,903,805	(6,038)	-0.32%
Capital outlay	0	0	0	0.00%
Debt service	0	0	0	0.00%
Interfund Transfers Out	238	103	(135)	0.00%
Total Expenditures	\$17,880,510	\$20,534,313	\$2,653,803	14.84%

Total General Fund expenditures increased by \$2,653,803 from the previous year. Salaries increased by \$1,846,928 or 26.58% due to contract settlement, which included previous year's increases and bonus payments to the teachers. Employee benefits increased \$673,440 or 14.75% due to employees retirement fund (PSERS) and medical insurance increases. Purchased service cost (transportation, heating, tuition payments and special education) increased by \$94,165. Instructional and maintenance supplies increased by \$49,101. Property decreased by a total of \$3,658. Other expenditures decreased by 6,038.

MANAGEMENT'S DISCUSSION & ANALYSIS - continued

FOR THE YEAR ENDED JUNE 30, 2017

General Fund – continued General Fund Budget

Over the course of the year, the District reviews expenditures and makes appropriate adjustments to cover unexpected expenditures in the annual operating budget due to increases in appropriations of significant budgeted costs.

CAPITAL ASSETS

The District has invested \$50,684,132 in a broad range of capital assets, including land, buildings, athletic facilities, furniture, computers, audio-visual equipment. Accumulated depreciation on these assets was \$17,572,852 at June 30, 2017. Depreciation expense for the year was \$1,307,515.

Current year purchases of capital assets totaled \$281,939. Detailed information concerning capital assets can be found in Notes to Financial Statements, Note 6.

MANAGEMENT'S DISCUSSION & ANALYSIS - continued

FOR THE YEAR ENDED JUNE 30, 2017

LONG-TERM LIABILITIES

At year-end, the District had \$25,280,000 in general obligation bonds and \$503,232 of accrued compensated absences plus Post Employment Benefits and 24,778,000 Net Pension Liability. See Notes to Financial Statements, Note 8, and Table A-5.

	Year Ended June 30, 2016	Year Ended June 30, 2017	Increase (Decrease)	Percent of Change
General Obligation Bonds	\$26,425,000	\$25,280,000	(\$1,145,000)	-4.33%
Accumulated Compensated Absences	308,172	268,420	(39,752)	-12.90%
Post Employment Benefits	215,294	234,812	19,518	9.07%
Net Pension Liability	23,866,000	24,778,000	912,000	3.82%
Total	\$50,814,466	\$50,561,232	(\$253,234)	-0.50%

Table A-5 Outstanding Long-term Liabilities

FACTORS INFLUENCING THE DISTRICT'S FINANCIAL FUTURE

There are several major factors that will have a significant influence on the District's financial future. During the 2007-08 fiscal year, Act 1 of 2006 was passed which limits future real estate tax increases to an inflation factor each year. The District plans to raise real estate taxes to the Act 1 index amount in order to cover decreasing state funding and future renovation projects.

The Public School Employee's Retirement System funding crisis will make future fiscal years challenging. Current projections of state subsidies reflect significant decreases that will adversely affect the educational process statewide. Line Mountain is preparing for this by reviewing all expenditures for upcoming fiscal years. Health Care with Highmark Blue Shield anticipates an overall increase between 10 to 24 percent.

MANAGEMENT'S DISCUSSION & ANALYSIS - continued

FOR THE YEAR ENDED JUNE 30, 2017

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have any questions concerning this report, or require any additional financial information, please contact the Line Mountain School District, Business Office, 185 Line Mountain Road, Herndon, PA 17830.

LINE MOUNTAIN SCHOOL DISTRICT Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position June 30, 2017

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS

Amounts reported for governmental activities in the statement of net position are different because:

Capital Assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of capital assets is \$49,836,762, and the accumulated depreciation is \$17,273,101.

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore, are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

Bonds payable(25,280,000)Compensated absences(268,420)Postemployment Benefits(234,812)Net Pension Liability(24,778,000)	(50,561,232)
Taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore, are deferred in the funds.	440,244
Governmental funds report debt issuance premiums and discounts as another financing source or use at the time of issuance. Premiums, discounts, and deferred charges are reported as an unamortized asset or liability in the District-wide financial statements.	343,934
Governmental funds do not report a liability for accrued interest until due and payable.	(89,134)
Contributions to the pension plan and pension deferrals are deferred outflows of resources on the statement of net position but are not reported in the governmental funds.	4,645,792
Pension deferrals are deferred inflows of resources on the statement of net position but are not reported in the governmental funds.	(1,667,364)

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS \$ (1,046,631)

Governmental funds report capital outlays as expenditures. In the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeds capital outlays in the current period.

The issuance of long-term debt provides current financial resources to governmental fund, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. this amount is the net effect on these differences in the treatment of long-term debt and related items.

In the Statement of Activities, interest in accrued on outstanding bonds, whereas, in governmental funds, an interest expenditure is reported when due.

Because some property and earned income taxes will not be collected for several months after the District's year-end, they are not considered as available revenues in the governmental funds.

Deferred gains on bond refunding and original issue discounts are capitalized and amortized.

Changes in the proportionate share of collective net pension liability does not require the use of or provide current finincial resources and is not reported in the governmental funds.

LINE MOUNTAIN SCHOOL DISTRICT Notes to the Financial Statements June 30, 2017

Note 1 - Summary of Significant Accounting Policies

The accompanying financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the school district's accounting policies are described below.

A. Financial Reporting Entity

As defined by accounting principles generally accepted in the United States of America, the School District is considered a "primary government". The School District is governed by a nine member board to which each member is elected by the citizens of each defined district.

For financial reporting purposes, Line Mountain School District has included all funds and organizations. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District.

The School District participates in a jointly governed organization. The organization is the Northumberland County Career and Technology Center. The organization is presented in Note 11 to the basic financial statements.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of net position presents the District's non-fiduciary assets and liabilities, with the difference reported as net position. Net Positions is reported in three categories:

1. Net Investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances of bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

2. Restricted net positions result when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Note 1 - Summary of Significant Accounting Policies – continued

B. Government-wide and Fund Financial Statements - continued

3. Unrestricted net positions consist of net positions not meeting the definition of the two preceding categories. Unrestricted net positions often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property taxes and other items not included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements.

The School District reports the following major governmental funds:

General Fund - This is the School District's primary operating fund. The general fund is used to account for and report all financial resources not accounted for and reported in another fund.

Capital Projects Fund - This is used to account for financial resources to be used for capital improvements, and the construction, replacements, additions, and maintenance to facilities, and purchase of school buses.

Additionally, the school district reports the following fund types:

PROPRIETARY FUNDS

<u>Enterprise Funds</u> - These funds are used to account for those operations that are financed and operated in a manner similar to private business enterprises or where the School District has decided that periodic determination of revenues earned, expenses incurred and/or net income is necessary for management accountability.

FIDUCIARY FUNDS

<u>Private-purpose Trust Funds</u> - Private-purpose Trust Funds are used to report all trust arrangements, other than those properly reported elsewhere, in which the principal and income benefit individuals, private organizations or other governments.

<u>Agency Funds</u> - Agency Funds are used to report resources held by the District in a purely custodial capacity (assets equal liabilities) and do not involve measurement of results of operations.

Note 1 - Summary of Significant Accounting Policies - continued

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting, as are the Proprietary and Fiduciary Fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred or economic asset used, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and judgments, are recorded only when payment is due.

Federal grants and assistance awards made on the basis of entitlement periods are recorded as receivables and revenues when entitlement occurs. Federal reimbursement type grants are recorded as revenues when the related expenditures are recognized. Use of grant resources is conditioned upon compliance with terms of the grant agreements and applicable federal regulations, which include subjecting grants to financial and compliance audits.

Property taxes, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual.

Property taxes are levied by the School District upon an assessed value times an approved millage rate. See Note 3 for further details.

Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Note 1 - Summary of Significant Accounting Policies - continued

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation - continued

The effect on inter-fund activity has been eliminated from the government-wide statements.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing, and Financial Reporting,* issued in 2012 by the Government Finance Officers Association and are consistent with the broad classifications recommended in *Financial Accounting for Local and State School Systems,* 2014, issued by the U.S. Department of Education.

D. Basis of Accounting

1. Revenues - Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditures requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal yearend: property taxes available as an advance, income taxes, grants, interest, tuition and student fees.

2. Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Note 1 - Summary of Significant Accounting Policies - continued

E. Budgetary Process

The operating budget is prepared in accordance with generally accepted accounting principles. An annual budget prepared by function and object is formally adopted for the General Fund. Project-length financial plans are used for Capital Projects Fund.

The budget may be amended during the year if projected increases or decreases in revenue are identified by the Business Manager. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the budget when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended budget issued during the fiscal year 2016.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

F. Encumbrances

An encumbrance system is maintained to account for commitments or assignments resulting from approved purchase orders, work orders and contracts. However, the School District attempts to liquidate all encumbrances at year-end. Encumbrances outstanding at year-end are reported within committed or assigned fund balances.

G. Cash and Investments

Cash includes amounts in demand deposits and certificates of deposit. Investments consist of repurchase agreements and funds invested in the PA Treasury Investment Program and are stated at cost, which approximates market value. This is in accordance with Section 440.1 of the School Code.

H. Taxes Receivable and Deferred Inflows

Taxes receivable consist of delinquent real estate taxes due at June 30, 2017, less an allowance for the amount of these delinquencies not expected to be collected within the next fiscal year.

Deferred revenue consists of the amount of taxes receivable at June 30, 2017, less the amount actually collected and remitted to the School District in July and August 2017.

I. Due From/To Other Funds

During the course of operations, transactions occur between individual funds for goods provided or services rendered. These receivables and payables, to the extent they exist, are classified as "Due from Other Funds" or "Due to Other Funds" on the balance sheet.

Note 1 - Summary of Significant Accounting Policies - continued

J. Inventories

The District's inventory of supplies in the General Fund is not significant in amount and is therefore not included in the financial statements.

A physical inventory of the Food Service Fund food and supplies was taken as of June 30, 2017. The inventory consisted of government donated commodities which were valued using USDA values, and other cafeteria supplies valued at cost using the first-in, first-out (FIFO) method. Any unused commodities donated by the federal government at June 30, 2017 are reported as deferred revenue.

K. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, sidewalks and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than: equipment - \$1,500, vehicles - \$10,000, and building improvements - \$25,000, and an estimated useful life in excess of one year. Management has elected to include certain homogeneous asset categories with individual assets less than \$1,500 as composite groups for financial reporting purposes. In addition, capital assets purchased with a long-term debt may be capitalized regardless of the thresholds established. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

All capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives.

Description	Estimated Lives
Land	Not Depreciated
Land Improvements	12 Years
Buildings and Building Improvements	40 Years
Vehicles	5 - 15 years
Furniture and Equipment	12 Years

Note 1 - Summary of Significant Accounting Policies - continued

L. Long-Term Liabilities

In the government-wide financial statements and proprietary funds types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs whether or not withheld from the actual debt proceeds received, are reported as administrative expenditures.

M. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

N. Fund Balances

Fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. Following are descriptions of fund classifications used by the district:

Non-spendable fund balance includes items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds are restricted, committed, or assigned) and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Committed fund balance includes amounts that can be used only for the specific purposes pursuant to constraints imposed by a formal action of the School Board, the District's highest level of decision-making authority. This formal action is the approval of a resolution for a specific purpose.

Assigned fund balance includes amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the general fund, this is the residual amount within the fund that is not restricted or committed. Assignments of fund balance are created by the Business Manager pursuant to authorization established by the board.

Note 1 - Summary of Significant Accounting Policies – continued

N. Fund Balances - continued

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance.

When an expenditure/expense is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) resources are available, it is the District's general policy to use restricted resources first. When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the District's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

Governmental Fund Balances

Governmental Fund Balances consist of the following at June 30, 2017:

	Capital General Projects Fund Fund To		Total
Non Spendable:	\$-	\$-	\$-
Restricted: Access Funds	-	-	-
Committed: Capital Improvements Pension Obligation Lease Obligations Medical Insurance	530,000 154,765 850,000	4,536	4,536 530,000 154,765 850,000
Assigned: Capital Improvements	-	1,068,255	1,068,255
Unassigned: Unassigned	2,259,710		2,259,710
Total Fund Balances	\$3,794,475	<u>\$ 1,072,791</u>	\$4,867,266

Although the board restricts the use of the Capital Projects Fund assets for construction, additions and equipment, Fixed Assets can be purchased out of the General Fund if the items are budgeted for in the annual budget.

Note 1 - Summary of Significant Accounting Policies - continued

O. Definition of Cash and Cash Equivalents

For the purpose of the statement of cash flows, the term cash and cash equivalents includes cash in bank and short-term, highly liquid investments with a maturity of ninety days or less at the date of purchase.

P. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability. The liability includes the employees who are currently eligible to receive termination benefits. The amount is based on accumulated sick leave and the various rates stated in the labor contracts. The School District records a liability for accumulated unused sick leave for all employees.

The entire compensation absence liability is reported on the government-wide financial statements. On governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. For the enterprise fund, the entire amount of compensated absences is reported as a fund liability.

Q. Other Post-Employment Benefits

Substantially all employees of the School District are covered under one of two currently applicable labor agreements. In addition to the pension benefits described in Note 9, the following post-employment benefits are mandated by these labor agreements.

Instructional employees who have served at least twenty-five years in the Line Mountain School District, and who are eligible for normal retirement, the "window" or disability retirement from the field of public education under the PSERS will be granted \$65 multiplied by the total number of unused sick days accumulated by the employee. Any instructional employees with 10 years in the Line Mountain School district are entitled to \$20 for unused sick days up to 150 days and \$30 for unused sick days above 150 days.

Noninstructional employees, who have served in the Line Mountain School District, will be granted a retirement severance at the time of retirement equal to the sum of \$25 per day for each day of accumulated sick days.

Note 1 - Summary of Significant Accounting Policies - continued

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

S. Operating and Nonoperating Revenues

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as nonoperating in the financial statements.

T. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position and/or the balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of resources that applies to a future period(s) and therefore will not be recognized as an outflow of resources (expense/expenditure) until then. The School District has only one item that qualifies for reporting in this category. The deferred charge on refunded debt resulting from the difference in the carrying value of the refunded debt and its reacquisition price is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the Statement of Net Position and/or the balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of resources that applies to a future period(s) and therefore will not be recognized as an inflow of resources (revenue) until that time. The School District has two types of this item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the first item, unavailable revenue, is reporting only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and grants and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. The second item, Deferred Bond Premiums on debt is deferred and amortized over the life of the debt.

Note 2 - Legal Compliance Budgets

All principals at each educational level of the School District submit requests for appropriation to the superintendent and business administrator. A tentative budget is prepared. It includes information on the past year, current year estimates and requested appropriations for the next fiscal year. The proposed budget is presented to the School Board at public meetings for their review.

Tentative adoption of the budget must be made 30 days prior to final adoption to allow for public review. Final adoption of the budget must occur on or before June 30. Budget transfers are typically made by the business administrator at year end with Board approval.

Note 3 - Real Estate Tax and Deferred Revenue

Based upon assessments provided by the County, the School District bills and collects its own property taxes. The School District tax rate For the Year Ended June 30, 2017 was 72.38 mills for Northumberland County residents as levied by the School Board. The schedule for real estate taxes levied for each fiscal year is as follows:

July 1	-Levy date
July 1 - August 31	-2% discount period
September 1 - October 31	-Face payment period
November 1 - December 31	-10% penalty period
December 31	- Delinquent Date

The School District, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes as determined by the administration. A portion of the net amount estimated to be collectible which was measurable and available within 60 days was recognized as revenue and the balance deferred in the fund financial statements.

The balances at June 30, 2016 are as follows:

	Gross Taxes <u>Receivable</u>	Allowance for Uncollectible <u>Taxes</u>	Net Estimated to be Collectible	Tax Revenue <u>Recognized</u>	Deferred <u>Taxes</u>
Real Estate	\$ <u>1,461,262</u>	\$ (<u>710,877</u>)	\$ <u>750,385</u>	\$ <u>310,141</u>	\$ <u>440,244</u>

The deferred revenue balance in the General Fund is \$440,244.

Note 4 - Due from Other Governments

Amounts due from other governments represent receivables for revenues earned by the School District. At June 30, 2017, there were no amounts due from other governmental units.

Note 5 - Cash and Cash Equivalents and Investments

The School District's cash deposits and investments are restricted by statute to United States Treasury bills, short-term obligations of the United States Government and certain obligations of the United States, Commonwealth of Pennsylvania or its political subdivisions which are backed by the full faith and credit of those governmental entities. Additionally, the School District may invest in shares of a properly registered investment fund whose investments consist of the securities listed above. Deposits in banks and other financial institutions must be insured by the Federal Deposit Insurance Corporation or the National Credit Union Insurance Fund. Deposits in excess of the maximum insurable amounts must be collateralized by securities held by that institution, in accordance with the provisions of law. Pool pledging in accordance with P.L. 281, No. 72, (Act 72), is permissible.

Risk Categories - Deposits

All deposits are carried at cost. There are three categories of credit risk that may apply to the School District's deposits.

- 1. Insured or collateralized with securities held by the School District or by its agent in the School District's name.
- 2. Collateralized with securities held by the pledging financial institution's trust department or agent in the School District's name.
- 3. Uncollateralized.

Balances held in each investment category at June 30, 2017, are as follows:

Note 5 - Cash and Cash Equivalents and Investments - continued

Risk Categories - Deposits - continued

	Carrying Amount	Bank Balance	Credit Risk
Insured Deposits (FDIC) Uninsured Deposits: Collateral held by Federal Reserve	\$ 291,674	\$ 291,924	1
Bank in School District's Name	-	-	2
Uncollateralized	4,180,423	4,181,375	3
Total Fund Balances	\$4,472,097	<u>\$ 4,473,299</u>	

The amounts listed as uncollateralized have been secured by pool pledging in accordance with Act 72.

Balances held in each investment category at June 30, 2017, are as follows:

	Carrying Amount	Bank Balance	Credit Risk
Investments in Pools Managed by			
Other Governments	\$1,377,402	\$ 1,750,549	1
Total Investments	\$1,377,402	\$ 1,750,549	

Concentration of Credit Risk - The school places no limit on the amount the School may invest in any one user. Certificates of deposit and pooled pledged accounts comprise 100% of the School's total investments.

Interest Rate Risk - The School does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - The School has no investment policy that would limit its investment choices to certain credit ratings. The certificates and pooled pledged accounts are not rated.

.

Note 6 – Changes in Capital Assets

Capital asset activity for the year ended June 30, 2017, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
GOVERNMENT ACTIVITIES		mereubes	Decreases	
Capital Assets, Not Being Depreciated				
Land	\$ 410,066	\$ -	\$-	\$ 410,066

Depreciation expense was charged to functions/programs of the primary government as follows:

GOVERNMENT ACTIVITIES Instruction: Regular 600,199 \$ 222,009 Special Support Services: Pupil 64,613 Instructional Staff 25,812 Administration 131,312 101,660 **Pupil Transportation** Operation and Maintenance Plant 132,190 Operation of Noninstructional Services: Student Activities 28,031 \$1,305,826 Total Depreciation Expense - Governmental Activities **BUSINESS - TYPE ACTIVITIES** Food Service Fund \$ 16,450 \$ Total Depreciation Expense - Business - Type Activities 16,450

Note 7 – Operating Lease Activity

In 2015, the School District entered into a copier equipment lease agreement with Ricoh. The agreement qualifies as an operating lease for accounting purposes and therefore, has been recorded as an expense in the accompanying statement of activities. The lease is a 63 month contract, commencing October 2015 to January 2021 with a fee of \$36,837. Rental expense For the Year Ended June 30, 2017 was \$7,017.

The future minimum lease payments over the next five years are shown below:

 Total		
\$ 7,017		
7,017		
7,017		
4,093		
-		
\$ 25,144		
\$		

In 2015, the School District entered into a copier equipment lease agreement with Toshiba. The agreement qualifies as an operating lease for accounting purposes and therefore, has been recorded as an expense in the accompanying statement of activities. The lease is a five year contract, commencing June 2015 to June 2020 with a fee of \$9,185. Rental expense For the Year Ended June 30, 2017 was 1,837.

The future minimum lease payments over the next five years are shown below:

2028 thru 2032	7,695,000
2033 thru 2037	4,915,000
Total	\$ 25,280,000

Note 9 - Pension Plan

1. Summary of Significant Accounting Policies

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSER's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms investments are reported at fair value.

General Information about the Pension Plan

Plan description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at <u>www.psers.pa.gov</u>.

Benefits provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Note 9 - Pension Plan - continued

Benefits provided - continued

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Contributions

Members Contributions:

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in the future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Note 9 - Pension Plan - continued

Contributions

Employer Contributions:

The school districts' contractually required contribution rate for fiscal year ended June 30, 2017 was 29.20% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$2,286,428 for the year ended June 30, 2017.

2. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability of \$24,778,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2015 to June 30, 2016. The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2016, the District's proportion was .0500 percent, which was a decrease of .0051 from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the District recognized pension expense of \$1,679,280. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	rred Outflows Resources	Deferred Inflows of Resources		
Difference Between Expected and Actual Experience	\$ -	\$	154,500	
Changes in Assumptions	855,500		-	
Net Difference Between Projected and Actual				
Investment Earnings	1,342,500		-	
Changes in Proportion	115,500		1,467,000	
Difference Between Employer Contributions and				
Proportionate Share of Total Contributions	45,864		45,864	
Contributions Subsequent to the Measurement Date	2,286,428		-	
	\$ 4,645,792	\$	1,667,364	

Note 9 - Pension Plan - continued

2. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - continued

\$1,651,871 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	
2018	\$ (34,000)
2019	(34,000)
2020	259,000
2021	76,000
Total	\$ 267,000

3. Changes in Actuarial Assumptions

The total pension liability as of June 30, 2016 was determined by rolling forward the System's total pension liability as of the June 30, 2015 to June 30, 2016 using the following actuarial assumptions, applied to all periods included in the measurement:

Changes in assumptions used in measurement of the Total Pension Liability beginning June 30, 2016:

- The Investment Rate of Return was adjusted from 7.50% to 7.25%.
- The inflation assumption was decreased from 3.00% to 2.75%.
- Salary growth changed from an effective average of 5.50%, which was comprised of inflation of 3.00%, real wage growth and for merit or seniority increases of 2.50%, to an effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.

Mortality rate were modified from the RP-2000 Combined Healthy Annuitant Tables (male and female) with age set back 3 years for both males and females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. For disabled annuitants the RP-2000 Combined Disabled Tables (male and female) with age set back 7 years for males and 3 years for females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. The actuarial assumptions used in the June 30, 2016 valuation were based on the experience study that was performed for the five-year period ending June 30, 2015. The recommended assumption changes based on this experience study were adopted by the Board at its June 10, 2016 Board meeting, and were effective beginning with the June 30, 2016 actuarial valuation.

Note 9 - Pension Plan – continued

3. Changes in Actuarial Assumptions - continued

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Public Equity	22.5%	5.3%
Fixed Income	28.5%	2.1%
Commodities	8.0%	2.5%
Absolute Return	10.0%	3.3%
Risk Parity	10.0%	3.9%
Infrastructure/MLPs	5.0%	4.8%
Real Estate	12.0%	4.0%
Alternative Investments	15.0%	6.6%
Cash	3.0%	0.2%
Financing (LIBOR)	(14.0%)	0.5%
	100%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2016.

Discount rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 9 - Pension Plan- continued

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1- percentage point lower (6.25%) or 1- percentage - point higher (8.25%) than the current rate:

5	19	% Decrease 6.25%	 Current Discount Rate 7.25%	1% Increase 8.25%
District's Proportionate Share of the Net Pension Liability	\$	30,311,000	\$ 24,778,000	\$20,130,000

Pension plan fiduciary net position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at <u>www.psers.pa.gov</u>.

Note 10 - Other Postemployment Benefits

Beginning in fiscal year 2009, the School implemented Governmental Accounting Standards Board (GASB) Statement No. 45 for other postemployment benefits (OPEB) offered to retirees. This standard addresses how local governments should account for and report their costs related to postemployment healthcare and other non-pension benefits, such as the School's retiree health benefit subsidy. Historically the School's subsidy was funded on a pay-as-you-go basis but GASB 45 requires that the School accrue the cost of the retiree health subsidy and other postemployment benefits during the period of employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of postemployment benefits and the financial impact on the School. This funding methodology mirrors the funding approach used for pension benefits. The School has implemented GASB 45 prospectively.

The annual cost of other postemployment benefits (OPEB) under GASB 45 is called the annual required contribution or ARC. The estimated pay-as-you-go cost for OPEB benefits is \$72,756 for fiscal year 2017. The ARC for fiscal year 2017 is \$92,274 and the estimated net OPEB obligation as of June 30, 2017 is \$234,812.

Note 10 - Other Postemployment Benefits

The School has elected not to pre-fund OPEB liabilities. The School is required to contribute the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the School's annual OPEB cost for the year, the amount contributed to the plan, and the changes in the School's net OPEB obligation for the health care benefits.

Annual Required Contribution	\$ 95,803
Interest on Net OPEB Obligation	9,688
Adjustment to Annual Required Contribution	(13,217)
Annual OPEB Cost	92,274
Estimated Contributions Made	(72,756)
Estimated Increase in Net OPEB Obligation	19,518
Net OPEB Obligation, Beginning of Year	215,294
Estimated Net OPEB Obligation, End of Year	\$234,812

As of July 1, 2014, the most recent actuarial valuation date, the plan was completely unfunded. The actuarial accrued liability for benefits was \$828,634 and actuarial value of assets was \$-0-, resulting in an unfunded actuarial accrued liability (UAAL) of \$828,634. As of the actuarial valuation date, the covered payroll (annual payroll of active employees covered by the plan) was \$6,807,730, and the ratio of the UAAL to the covered payroll was 12.17%.

In the July 1, 2014 actuarial valuation, the entry age normal cost method was used. The actuarial assumptions include a 4.50% interest rate and an annual healthcare cost trend rate of 6.50% in 2014, decreasing 0.50% per year to an ultimate rate of 5.50% in 2016. Rates gradually decrease from 5.30% in 2017 to 4.20% in 2089 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.

Note 11 - Jointly Governed Organizations

The School District participates in the Northumberland County Career and Technology Center (NCCTC) which is governed by a joint operating committee. The committee is composed of seven members, two appointed annually from each Mount Carmel and Line Mountain School Districts, and three appointed annually from Shamokin School District. The NCCTC provides vocational and technical education for students of the three member school districts. Each member school district pays tuition to the NCCTC based upon its relative enrollment percentage at the school. The member school districts approve the budget of the NCCTC.

This joint venture does not meet the criteria for inclusion within the reporting entity because the NCCTC is separately charted from the school districts it serves, its joint operating committee controls the employment of personnel, its joint operating committee has the power to approve all operating expenditures of the NCCTC, and the NCCTC is maintained as a separate operating unit.

Note 11 - Jointly Governed Organizations - continued

For the year ended June 30, 2017, the member school districts and the percentage of tuition received from each member school district were as follows:

Shamokin	62.45%
Mount Carmel	28.46%
Line Mountain	9.09%
	100.00%

The School District's share of the joint venture is not determinable. The most recent NCCTC financial information for the year ended June 30, 2017 is available by contacting the Executive Director, Northumberland County Career and Technology Center, Coal Township, PA.

The School District made tuition payments, debt service payments and administrative costs payments to NCCTC of \$155,836 for the year ended June 30, 2017.

No amounts were due to/from NCCTC at June 30, 2017.

Note 12 - Commitments and Contingencies

The School District receives federal and state grants and subsidies that are subject to audit and review by the Auditor General. These audits could result in a request for reimbursement by the state for amounts disallowed under the terms and conditions of the appropriate agency. In the opinion of the District's management, such reimbursements, if any, will not be significant.

The School district is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate the outcome or liability, if any, of the school district with respect to the various proceedings. However, the school district's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the school district.

Note 13 - Risk Management

The School District is exposed to various risks of loss related to theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The School District has purchased various insurance policies to safeguard its assets from risk of loss. Insurance coverage appears to be consistent with previous years. During the year ended June 30, 2017, and the three previous fiscal years, no settlements exceeded insurance coverage.

Note 14 - Subsequent Event

On October 31, 2017, the School District issued General Obligation Bonds, Series of 2017 in the amount of \$7,725,000. The Bonds will be used for the current refunding of the District's General Obligation Bonds, Series of 2012, and paying the costs associated with issuance of the Bonds. The bonds mature on November 15, of each year through 2033 and bear interest at rates ranging from 1.00% to 3.00%. Interest is payable semiannually on May 15 and November 15.

REQUIRED SUPPLEMENTARY INFORMATION

1

LINE MOUNTAIN SCHOOL DISTRICT Schedule of Funding Progress for the Postemployment Benefits Plan Required Supplementary Information For the Year Ended June 30, 2017

			A	ctuarial					
			A	Accrued					UAAL as a
	Actu	arial	Ι	liability	U	Infunded			Percentage
Actuarial	Valu	e of	(.	AAL) -		AAL	Funded	l Covered	ofCovered
Valuation	Ass	sets	ets Entry Age			(UAAL)	Ratio	Payroll	Payroll
Date	(8	ı)		(b)		(b - a)	(a - b)	(c)	((b - a) / c)
7/1/2014	\$	÷	\$	828,634	\$	828,634	0.00%	\$ 6,807,730	12.17%
7/1/2011	\$		\$	991,583	\$	991,583	0.00%	\$ 6,251,785	15.86%
7/1/2008	\$	121	\$1	,086,518	\$	1,086,518	0.00%	\$ 6,272,865	17.32%

This valuation has been calculated using the Entry Age Normal Cost Method. Under the Entry Age Normal Cost Method, the Normal Cost is the present value of benefits allocated to the year following the valuation date. Benefits are allocated on a level basis over the earnings of an individual between the date of hire and the assumed retirement age. The Accrued Liability as of the valuation date is the excess of the present value of future benefits over the present value of future Normal Cost. The Unfunded Accrued Liability is the excess of the Accrued Liability over the Actuarial Value of Assets. Actuarial gains and losses serve to reduce or increase the Unfunded Accrued Liability.

LINE MOUNTAIN SCHOOL DISTRICT REQUIRED SUPPLEMENTARY INFORMATION Schedule of the District's Proportionate Share of Net Pension Liability Last Four Fiscal Years

LINE MOUNTAIN SCHOOL DISTRICT Notes to the Schedule of Expenditures of Federal Awards June 30, 2017

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Line Mountain School District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 2 - Relationship to General Purpose Financial Statements

Federal financial assistance revenues are reported in the School District's general purpose financial statements as follows:

General Fund Cafeteria Fund	\$	386,336 325,857
Total per Financial Statements	1 111111111111111111111111111111111111	712,193
Access Reimbursements Not Included on the		
Schedule of Expenditures of Federal Awards		(1,740)
IDEA Funds are Coded to Local Funds but		(1,740)
Included on the Schedule of Expenditures		
of Federal Awards		186,778
Total Federal Revenue per Schedule of Expenditures of Federal Awards	\$	897,231

Note 3 - USDA Donated Commodities

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2017, the organization had food commodities totaling \$10,298 in inventory.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Members of the Board Line Mountain School District Herndon, PA

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Accounting Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Line Mountain School District, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Line Mountain School District's basic financial statements, and have issued our report thereon dated November 22, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Line Mountain School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Line Mountain School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Line Mountain School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of

performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Line Mountain School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Members of the Board Line Mountain School District Herndon, PA

Report on Compliance for Each Major Federal Program

We have audited Line Mountain School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Line Mountain School District's major federal programs for the year ended June 30, 2017. Line Mountain School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Line Mountain School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code* of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Line Mountain School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Line Mountain School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Line Mountain School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of Line Mountain School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Line Mountain School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with *the Uniform Guidance*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Line Mountain School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of *the Uniform Guidance*. Accordingly, this report is not suitable for any other purpose.
